

Genuine Crystal Glass Nail Files Fact Sheet

- Innovative and new!
- The only glass file *guaranteed* to never wear out or wear down.
- Superior to any file on the market. Vast improvement over traditional nail files.
- Used by celebrities. See our website for a little name dropping.
- Each design is an *original* work of art created by local Arizona artists.
- Files breeze through airport security.
- Use on natural and artificial nails.
- With continued use reduces chipping, peeling and splitting of natural nails.
- Filing surface is so smooth; it will not disturb nail polish during touch-ups.
- Won't tear or harm delicate skin. Safe for diabetics and babies.
- Filing surface is non-porous, double-sided and permanently etched into the glass.
- The only file that can be sanitized 100% using UVB light, autoclave, heat or liquid disinfectant. This applies to clear handle files ONLY.
- The only file board certified in every state in the USA.
- Made from float glass, the same process used to produce wine goblets and crystal vases.
- Environmentally safe. NO lead is added or chemicals used during the manufacturing process.
- Tempered and hardened for durability and safety, 102% stronger than standard glass.
- Files that have not been through the tempering and hardening process can splinter.
- Designed to break in a blunt fashion, should you drop your file, reducing the risk of injury.
- Handles are available in a wide selection of brilliant colors.
- Personalize the handle with your company name, logo, mascot, word mark or individual monogram with silk-screening or laser engraving.
- Embellish the handle with semi-precious stones or Swarovski crystals.
- Browse our extensive selection at our website www.95andsunny.com.
